[ImTOO PodWorks Platinum 5.7.29 Build 20190912 With Keygen \[Latest\]](#)

The screenshot displays the Automator application window. On the left is the 'Library' pane with categories like 'Library', 'Files & Folders', 'Internet', 'System', and 'Utilities'. The main workspace contains a workflow with the following actions:

- Find Finder Items:** Search for 'Carletonian PDFs' where 'Name' contains '1920'.
- Extract PDF Text:** Output is set to 'Rich Text'. 'Save Output to:' is '1920 Texts'. 'Output File Name' is 'Same as Input Name'. 'Replace Existing Files' is checked.
- Combine Text Files:** (No configuration visible)
- Filter Paragraphs:** Return paragraphs that contain 'Swimming'.
- New RTF File:** File Format is 'Rich text (rtf/rtfd, convert if needed)'. Save as: 'What the Carletonian said about Swimming in 1920'. Where: 'Desktop'. Encoding: 'Unicode (UTF-8)'. 'Replacing existing files' is checked.

At the bottom left, a preview window for the 'Ask for Confirmation' action is shown:

Ask for Confirmation
 This action displays a dialog with a message, an explanation, and two buttons. If the user selects the affirmative button the action continues. The negative button stops the workflow.

Input: Anything
Result: Anything
